PUBLICATIONS: ART REVIEWS

2011 Paglia, Michael - "Signature Styles", **Denver Westword**, June 9 - 15, 2011, Volume 34, Number 41, p. 38.

Excerpt: "... Walker is introducing a remarkable young abstract painter named Danny Williams, who creates elegant monochromes in strident jewel tones. Among the most compelling features of these paintings is the showy surface effects produced by manipulating the physical properties of the pigment to make arching patterns. These pieces are tremendous, and Williams is a painter worth watching. . . ."
