

DANNY WILLIAMS | Artist Statement

I consider all my paintings to be visual portals to other realms. . . visual portals that draw the viewer into their depths and hopefully evoke a sense of wonder. I rely on color, brush technique, perspective, and the physical properties of oil paint and light to achieve this unique, multi-dimensional effect. Consequently, my paintings appear very sculptural and organic.

The images that I create are abstract interpretations of my life experiences, interests, travels, and observations of nature. I am drawn to re-creating the dynamic, flowing wave-forms and patterns that I observe in nature. Thus, giving my "abstract" paintings a sense of familiarity and identity to the viewer.
